

**TITLE:**

Why is it that King Abudllah II, the Muslim Brotherhood, PLO and Hamas call the Jordan is Palestine Peace Plan and Conference, the “Most Dangerous Conference”?

**INTRODUCTION:**

There is no doubt about it, but its time for real change, one that turns the status quo on its ears and saves both Jewish and Arab lives. History knows that the Jordan Is Palestine Option has always been the Real Palestinian Peace Plan, and it's time that it becomes reality. This Conference is designed to lead directly to the one and only true peace solution, and it does this by righting two Wrongs: Rightfully restoring Israel's sovereignty on its soil per the Treaty of Sevres, San Remo Accords and 1919 London Faisal-Weismann Accord and restore the rightful self-determination of Palestinians in Arab Palestine (aka Jordan).

Opposed by Jordan's King, The Muslim Brotherhood, the PLO and Hamas, the conference will take place on October 17, 2017 in Jerusalem, where it all began.

With support for the **Jordan Is Palestine Peace Plan (JIPP)** growing, **the International Jewish-Muslim Dialogue Center (IJMDC)** invites you to join our brothers and sisters in peace. We invite you to do this by rolling up your sleeves and joining us in this amazing historical event. This is your direct invitation to become a vital part of a dynamic dialogue that will lead to a real and lasting peace.

**WHY SHOULD YOU SUPPORT OUR EFFORTS? *The Plan, Conference and their symbolic importance***

- 1) Supports historical positions based upon signed accords and treaties which created the Nation-States of Jewish Palestine (aka Israel) and Arab Palestine (aka Jordan);
- 2) Informs the world know that there are options out there that are not being discussed;
- 3) Enhances business opportunities and relations between Israel and Jordan, as well as Jews and Muslims;
- 4) Creates a new Middle East by establishing economic programs that will change incomes and attitudes;
- 5) Stops Radical Islamic Terrorism cold by providing change to an extreme ideology while providing economic prosperity with greater opportunity to every individual;
- 6) Builds a real peace process from the ground up, rather than the top down, supported by fresh ideas;
- 7) Supports John Locke's belief that “there is no divine right of rule by any monarchy”
- 8) Understands that the Hashemite Dynasty will end sooner than latter. The question becomes this: what will take its place? (A Muslim Brotherhood Totalitarian Islamic State or a True Moderate Democratic Republic State based upon the rights of the sovereign and the individual)
- 9) Are so good that the King of Jordan, Muslim Brotherhood, the PLO and Hamas all oppose the Plan, Conference and concepts that we have outlined;
- 10) Will end the Arab-Israeli Conflict without firing a shot, ushering in the true Peace;

In support of these concepts, like those that led to the creation of Israel, the Conference promises a positive change in the status quo (a change unlike any others), as Arabs, Israelis, Muslims and Jews gather in peace, to create peace. To accomplish this, the Conference focuses on discussing ways to enhance Israel's sovereignty, while providing Palestinians with their rightful Jordanian/Palestinian homeland east of the Jordan River. Supporting this line of thinking and the resulting conversation are a variety of international leaders, including Israeli Knesset members, Jordanian politicians, writers, activists and decision-makers from both sides.

To show you how important this conference is, Jordan's King, The Muslim Brotherhood, the PLO and Hamas have all issued statements against the conference, calling it “The Most Dangerous Conference”, while hinting at stopping it using terrorist threats. That has not stopped the biggest names in the Jordan Is Palestine Peace movement like MK's Yehuda Glick and Oren Hazan, Jordanian Leader Mudar Zahran and Jordanian tribal figure Abed AlMaala from participating.

**THE JORDAN IS PALESTINE CONFERENCE:**

Based on two widely distributed documents, the Conference delivers to the world a specific plan for a real peace, as well as a regional plan for economic redevelopment. In an effort to encourage discussion, the **IJMDC** has placed them online for your review and commentary at: <https://sites.google.com/site/tijmdc/> .

To underscore just how important this Conference is, the opposition has started a “behind-the-scenes” diplomatic war discrediting the Conference and those who support peace in the region, while threatening to host a 3rd Intifada. In an effort to share their tactics with you, I'd like to call your attention to the following article: <http://www.sarayanews.com/index.php?page=article&id=443784> (note, please make sure your Google Chrome translator is turned on).

This article, along with a variety of fake emails and terrorist threats, clearly establishes to the world just how important this Conference is, especially since the underlying question is this: Why won't the King share his peace plan for both Israelis and Palestinians with the world? That is why the king of Jordan has been invited to attend, but for some reasons, he refuses to RSVP. Why?

It's time to introduce to you those who will be participating in this major event. Currently, there are 14 established speakers, with more asking the **IJMDC** to participate daily. **MEET THE IJMDC:** *An introduction*

Based in the United Kingdom, **The International Jewish-Muslim Dialogue Center (IJMDC)** is focused on advancing peace and tolerance between children of Abraham through focused dialogue, cooperation and economic partnerships.

Operating as an informational clearinghouse and doing things that governments can't, the **IJMDC** centers its efforts in two specific areas:

- Conducting conferences that lead to discussions centered around how to obtain peace in the Middle East. This is done by creating fair and equitable concepts that will help policy professionals construct solid public policy, from the ground up.
- Second, we are creating programming that will foster economic cooperation between Jews and Muslims.

Using those two concepts, the **IJMDC's** helps public policy focus on the fulfillment of international mandates that secure peace in the region, Israel's sovereignty as a Jewish state, and statehood with human rights for Palestinian Arabs.

The campaign presented to you today for your review is simple: we want to solicit help in the establishment of our organization, as well as our International Conference Program. Specifically, Jews and Muslims will be working together to conduct Conferences around the world. The conferences will focus on how we can work together to bring peace through economics. Conferences are being planned on all continents.

**CONCLUSION:** Here I would like to ask you this question – what would you do if those who first discussed establishing Israel as the Jewish homeland approached you and asked for help? You would do what is right, and help. In this century, now is your chance to support history and peace. Shalom
